Scrofula

THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS

It makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice.

SCHOOL QUESTION.

Secretary of the Interior Formally Abrogated What is Known as the Browning Ruling.

THIS IS A MOST IMPORTANT ACTION

The Effect of the Order Leaves the Indians Generally Free to Go to Any School.

Complaint Made That the Children Were Being Taken From the Government's and Transferred to Catholic Schools.

Washington, Oct. 31.—The secretary of the interior Wednesday formally abrogated what is known as the Browning ruling, which in effect holds that it is the duty of the service to fill the regular government schools before permitting drafts on the Indian children for sectarian school enrollment. The order was issued Wednesday afternoon. As received by the Catholic mission board, it says that "by direction of the secretary of the interior, the Browning ruling is hereby abrogated."

This is the most important action taken for a long period in the matter of sectarian Indian schools. The issuance of the order followed assurances given earlier in the day by Secretary Hitchcock to Archbishop Ireland, of St. Paul, and Riordan, of San Francisco, who called to urge action, that a recent suspension of the ruling would be changed to a complete abrogation of the order. The effect of the order is understood to leave Indians generally free to go to any school or attend none of them.

The Browning Ruling.

The Browning ruling was made in a letter written by former Commissioner of Indian Affairs Browning to Col. Clapp, the acting agent in charge of the Pine Ridge, S. D., agency, who had complained that children were being taken from the government's and transferred to the Catholic schools, and that the latter were interfering with the government school pupils.

Commissioner Browning said that the agent was the one to decide what school the children should attend, he being best fitted to pass upon their welfare. It is said, however, in no instance has the government transferred an Indian child from sectarian to a government school. The attendance of the children is solicited by both the agent and the sectarian school authorities. The policy of the present administration of the department and the bureau has been to avoid arbitrary action and decide every case on its merits. The Indian children permitted under the Indian bureau instructions to remain wherever once enrolled whether in a denominational, or in a government school, but those who had not heretofore been enrolled have been placed according to the preference of the parents and the best judgment of the agent.
